

REUSABLE FACEMASK

- Adult size, Non-Sterile
- Outer fabric is nylon ripstop finished with a polyurethane coating and a water repellent finish
- Inner fabric is a breathable, moisture-wicking polyester mesh
- No X-Ray attenuation properties
- Disinfect with disinfectant wipe or soap and water
- Machine-washable
- Designed for extended use
- Designed to avoid instances of skin irritation or cutting when worn for long periods of time.

Disclaimer: This is not a medical device cleared by the FDA. This option is for when Personal Protective Equipment (N95 recommended for Covid-19) is unavailable. This facemask is manufactured per CDC guidelines for homemade masks. Homemade masks are not considered PPE. Wearing this mask over a N95 mask may extend the life of your N95 mask.

Cleaning: You may clean this mask with a disinfectant wipe, by hand with soap and water, or in the washing machine. It is recommended to hang dry (do not expose to high heat).
