ChiroTouch	Discus Dental	Meditab	Prime Dental	
Ciraden	Doc-Aide	Mogo	ProMed	
ClientTrax	DSN	NDC	QSI	

In some cases, these companies have an internal bridge that they may charge for. When that happens, TigerView offers a free bridge program called TigerLink, that, in many cases, allows TigerView to obtain the patient name from the PMS and then automatically open the same patient in TigerView and display his or her images.

DIGITAL RADIOGRAPHY HARDWARE:

Phosphor Plate Systems: Air Techniques ScanX series; Fuji FCR, FDR; Gendex DenOptix; iCRco iCR3600; Kodak Orex; Soredex Optime
